DA2PPv - Distemper, Adenovirus Type 2 (Hepatitis), Parvo, and Parainfluenza. Especially important for puppies to receive it at 8, 12, 16 weeks, one year. Important for adult dogs that have contact with any dogs outside your home.

FVRCP - Feline Viral Rhinotracheitis, Calicivirus and Panleukopenia. Especially important for kittens to receive this at 8, 12, 16 weeks and one year. Important for adult cats that can have contact with any cats that are not your own.

Bordetella - Helps prevent kennel cough. Good for dogs that are frequently around other dogs.

***A staff member has reviewed all the above services and I elect for my pet to only receive what has been checked above. I decline all other services at this time. I understand that these vaccines can cause my pet to have an allergic reaction that could be fatal. My pet has not had a reaction to any vaccines in the past. By signing below, I relinquish the Humane Society of Cowlitz County from any liability if my pet should have any reaction.**
